

**Safety data sheet** According to Regulation (EC) No 1907/2006 (REACH) as amended by Commission Regulation (EU) 2020/878 Version number 1

Printing date 23.11.2024

Revision: 23.11.2024

SECTION 1: Identification of the substance/mixture and of the company/ undertaking
1.1 Product identifier
• Trade name: <u>102 POWERMIT-EXTRA: SUPER CERAMIC ADHESIVE EXTRA C1TE</u>
· Product group:
CERAMIC ADHESIVES
$\cdot$ 1.2 Relevant identified uses of the substance or mixture and uses advised against
· Product category Cement based ceramic adhesive
· <i>Application of the substance / the mixture</i> Powder additive
<ul> <li>1.3 Details of the supplier of the safety data sheet</li> <li>Manufacturer/Supplier:</li> </ul>
· <b>WERIMIT</b> · OSB 2. Kısım 24. Cad.No:18 Dösemealtı · Antalya · TURKEY
· Phone: + 90 444 1 290
<ul> <li>Further information obtainable from: KGR - Kimyasal Güvenlik Riskleri Dan. Hiz. ve Tic. LTD. ŞTİ.</li> <li>1.4 Emergency telephone number: +90 444 1 290 (On weekdays, during opening times)</li> </ul>
SECTION 2: Hazards identification
• 2.1 Classification of the substance or mixture • Classification according to Regulation (EC) No 1272/2008
GHS05 corrosion
Eye Dam. 1 H318 Causes serious eye damage.
GHS07
Skin Irrit. 2 H315 Causes skin irritation.
Skin Sens. 1 H317 May cause an allergic skin reaction.
STOT SE 3 H335 May cause respiratory irritation. (Contd. on page 2)

Printing date 23.11.2024

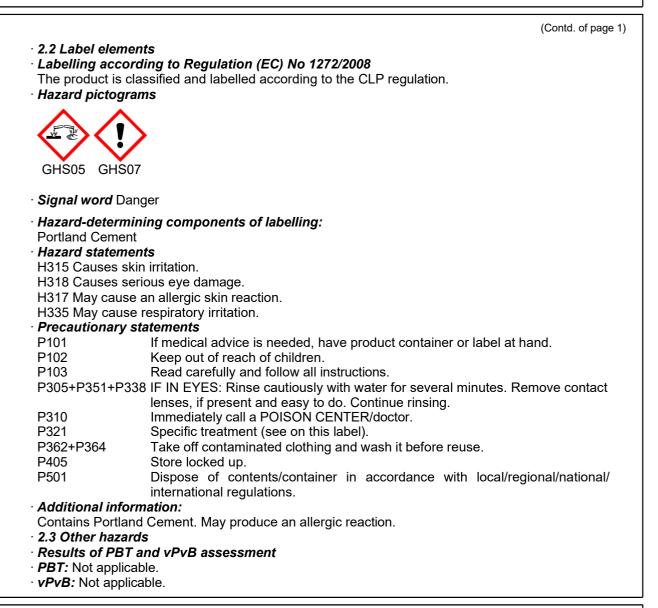

# Safety data sheet

According to Regulation (EC) No 1907/2006 (REACH) as amended by

Commission Regulation (EU) 2020/878 Version number 1

Revision: 23.11.2024

#### Trade name: 102 POWERMIT-EXTRA: SUPER CERAMIC ADHESIVE EXTRA C1TE

**SECTION 3: Composition/information on ingredients** 

· 3.2 Mixtures

· **Description:** Mixture of substances listed below with nonhazardous additions.

· Dangerous components:

CAS:65997-15-1 Portland Cement 25-50% EC no: 266-043-4 See Dam. 1, H318; Skin Irrit. 2, H315; Skin Sens. 1B, H317; STOT SE 3, H335

• Additional information: For the wording of the listed hazard phrases refer to section 16.

### **SECTION 4: First aid measures**

• 4.1 Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Do not give something by mouth to the affected person.

In case of doubt or symptoms occurring, consult to the doctor.

(Contd. on page 3)

SECTION 7: Handling and storage
<ul> <li>7.1 Precautions for safe handling Thorough dedusting. Ensure good ventilation/exhaustion at the workplace. Prevent formation of dust. Provide suction extractors if dust is formed. Use appropriate industrial vacuum cleaners or central vacuum systems for dust removal. In order to eliminate the risk of explosion, prevent formation of dust on top of the surfaces. Do not breathe the formed dust, do not let dust to contact with skin, eyes and clothing. In case of formation of dust, take necessary precautions to prevent static electricity formation. Store in cool, dry place in tightly closed receptacles. Keep away from heat and direct sunlight. Do not use pressurized air to empty containers. Information about fire - and explosion protection: No special measures required.</li></ul>
<ul> <li>7.2 Conditions for safe storage, including any incompatibilities</li> <li>Storage:</li> <li>Requirements to be met by storerooms and receptacles:</li> <li>Store in a cool location.</li> <li>Store only in the original receptacle.</li> <li>Information about storage in one common storage facility:</li> <li>Do not store together with heat sources, open flame or ignition sources.</li> <li>Do not store together with incompitable materials.</li> <li>Store away from food material and animal feed.</li> <li>Store away from dust sensitive materials.</li> <li>Store away from dust sensitive materials.</li> <li>Store away from water.</li> <li>Further information about storage conditions:</li> <li>Keep container tightly sealed.</li> <li>Store receptacle in a well ventilated area.</li> <li>Protect from heat and direct sunlight.</li> <li>Store in cool, dry conditions in well sealed receptacles.</li> <li>Protect from humidity and water.</li> <li>7.3 Specific end use(s) No further relevant information available.</li> </ul>
SECTION 8: Exposure controls/personal protection

## SECTION 6: Exposure controls/personal protection

· 8.1 Control parameters

· Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

(Contd. on page 5)

According to Regulation (EC) No 1907/2006 (REACH) as amended by Commission Regulation (EU) 2020/878

Antistatic shoes

Version number 1

Revision: 23.11.2024

### Trade name: 102 POWERMIT-EXTRA: SUPER CERAMIC ADHESIVE EXTRA C1TE

(Contd. of page 4) · Additional information: Exposure limit for dust: 3 mg/m3 (respirable fraction) 10 mg/m3 (total dust) The lists valid during the making were used as basis. · 8.2 Exposure controls · Appropriate engineering controls No further data; see section 7. Individual protection measures, such as personal protective equipment General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Do not eat, drink, smoke or sniff while working. Keep the working environment clean and tidy. Ensure that eye wash stations are available at the work place. Provide good ventilation. Respiratory protection: In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. Use suitable respiratory protective device in case of insufficient ventilation. Hand protection Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. The gloves should comply to EN374 Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. Penetration time > 480 min. Eye/face protection Tightly sealed goggles · Body protection: Chemical resistant protective clothing

## SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

· 10.2 Chemical stability

• Thermal decomposition / conditions to be avoided: Unstable in contact with acids.

• 10.3 Possibility of hazardous reactions No dangerous reactions known.

• 10.4 Conditions to avoid No further relevant information available.

• **10.5** *Incompatible materials:* No further relevant information available.

• 10.6 Hazardous decomposition products:

Irritant gases/vapours

Possible in traces.

## **SECTION 11: Toxicological information**

 $\cdot$  11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

· Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:

65997-15-1 Cement, portland, chemicals

Dermal LD50 >2000 mg/kg (rabbit)

9004-62-0 hecellose

Oral LD50 >2000 mg/kg (rat)

Skin corrosion/irritation Causes skin irritation.

· Serious eye damage/irritation Causes serious eye damage.

• Respiratory or skin sensitisation May cause an allergic skin reaction.

• Germ cell mutagenicity Based on available data, the classification criteria are not met.

· Carcinogenicity Based on available data, the classification criteria are not met.

· Reproductive toxicity Based on available data, the classification criteria are not met.

• STOT-single exposure May cause respiratory irritation.

• STOT-repeated exposure Based on available data, the classification criteria are not met.

· Aspiration hazard Based on available data, the classification criteria are not met.

11.2 Information on other hazards

· Endocrine disrupting properties

None of the ingredients is listed.

# **SECTION 12: Ecological information**

· Aquatic to	-	
9004-62-0	hecellose	
EC50	>1000 mg/l (bacteria)	
EC50/48h	>100 mg/l (daphnia)	
EC50/72h	>100 mg/l (Scenedesmus subspicatus)	
LC50/96h	>500 mg/l (danio rerio)	
12.3 Bioad	stence and degradability No further relevant information available. ccumulative potential No further relevant information available. lity in soil No further relevant information available.

(Contd. of page 7)

- · 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- **vPvB:** Not applicable.
- 12.6 Endocrine disrupting properties
- The product does not contain substances with endocrine disrupting properties.
- · 12.7 Other adverse effects When reacted with large amounts of water, the pH value increases.
- · Additional ecological information:
- · General notes:

Must not reach sewage water or drainage ditch undiluted or unneutralised.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packaging:
- · *Recommendation:* Disposal must be made according to official regulations.
- *Recommended cleansing agents:* Water, if necessary together with cleansing agents.

### **SECTION 14: Transport information**

· 14.1 UN number or ID number	
· ADR, IMDG, IATA	Void
<ul> <li>14.2 UN proper shipping name</li> </ul>	
· ADR, IMDG, IATA	Void
<ul> <li>14.3 Transport hazard class(es)</li> </ul>
